**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am writing to express my petitioning of AT&T and their trade association US Telecom, in request to take away access to unbundled network elements.

As a big city dweller, small business owner and a supporter of broadband connection, this is the only way fiber development can continue to grow. I have chosen a smaller, competitive provider because they are the only company that doesn't restrict internet access, continue to develop and push our network and have their customers best interest when it comes to privacy and competition. Granting this request would create an uncompetitive market, leading to increased costs and limited networks and infrastructure which directly goes against the 1996 Telecommunications Act - enabling competitive market entry and encouraging new network deployment.

I am voicing my concern for this request of AT&T and US Telecom and hope that the FCC continues to keep citizens in mind.

Cheers,

Kayla Fletcher
